Warm Weather Proves Beneficial to the Crops.

MONEY SITUATION IS EASIER

Cotton Marketing Going on Rapidly, Despite Drop in Price, Owing to Enlarged Movement of New Crop. Increased Inquiries for Pig Iron Following a Slight Decline,

New York, Sept. 20.—Bradstreet's review of the state of trade, to-morrow will say: "Whether attributable to the improvement in the general financial situation or because of favorable weather, allowing of additional crop development, there is a perceptibly better feeling in general comnercial lines. Warm weather has favored orn, and 75 per cent of the crop is now reported out of danger from frost, while the same influence has allowed cotton opening rapidly and packing and marketing becoming general. There is also less strain in time money, and some extensive days-Stops at principal points in Virginia. Vestible train; stendard coaches; parlor car to Hinton.

There are still many cross currents visible, which prevent generalization, and enough irregularity to convince many observers that a quieting down or excessive demand, concededly desirable in some lines, is not improbable. Easier money conditions are reported to have stimulated buying of raw wool by manufacturers, and a number of lines of cotton dress fabrics for next spring have been opened at considerable advances. On the other hand, the recent drop of one and one-quarter cents in cotton, quent upon enlarged movement of new crop, has made for further ease in cotton yarns, and there are reports of lower prices made for men's wear woolens for next spring for some manufacturers.'

Dun's Weekly Review. Dun's weekly review will say:

"Distribution of fall merchandise at retail increases steadily, except in some sections where the weather has been unfavorable. Jobbers are still forwarding large consignments of dry goods and kindred lines, and reports from the in-Washington-Southern Railway. terior indicate confidence in well sus-tehmond. Fredericksburg and tained business during the autumn and winter. Some interruption was caused by the religious observance, and there are still complaints of caution at Eastern cities regarding future operations, on acthe whole, mercantile collections are more prompt.

> "Manufacturers have orders on hands assuring active machinery for some months, even in the industries where conservatism is a noticeable feature, while each week puts a vast quantity of agricultural products beyond the reach of early frost, which is now regarded as the only serious menace to the great farm

staples. "Producers of pig iron appear to have reached a basis upon which business can be transacted, and increased inquiries have checked the downward tendency of quotations. The decline has not attained disturbing dimensions, no sensational changes occurring, but the gradual reductions have marked the recent period of inactivity. Purchases are more liberal, especially at the East, although most in erest is shown in deliveries during the balance of this year.

Textile Plants Busy.

"Textile plants are still busy, with the any other large industry as to the amount of business on hand. "Primary markets are somewhat dis-

turbed by the extensive decline in price of raw cotton, new orders decreasing as prospective purchasers endeavored to se-cure concessions in price of goods com-
